LANGUAGES

- Spanish (native)
- English (B2-C1 level)

INFO

- Driving license B1
- Flexible availability and willingness to relocate
- Open to hybrid, on-site, or remote working environments
- Own car

SKILLS

- Ability to analyze and solve problems
- Team work
- Adaptability
- Autonomy and self-learning

PROFILE

Passionate and motivated Computer Engineering graduate with a strong foundation in Artificial Intelligence and Machine Learning. Experienced in hands-on development using Python, Java, C++, and SQL through academic and personal projects. Eager to apply technical skills in a real-world environment and take the next step in a professional career. Curious by nature, driven by innovation, and ready to grow within a forward-thinking tech team.

EXPERIENCE

Data Analyst Intern (Nov 2025 - Now)

Renault España S.A. – Valladolid

Supported the digitalization of logistics processes within Alliance Logistics Network (ILN) and Import Platforms & PPA's.

Tools: Python, Spotfire, Looker, Microsoft Power Automate, PowerApps.

EDUCATION

University of Huelva (2021 - 2025)

Graduated in Computer Engineering from the University of Huelva, specialized in artificial intelligence and machine learning. GPA: 7.4

University of Stavanger (2024 - 2025)

During my final academic year, I participated in the Erasmus program at the University of Stavanger (Norway).

Bachelor's thesis in Computer Engineering

University of Huelva - 2025

Development of a Music Assistant System based on Machine Learning and Natural Language Processing with Large-Scale Language Models .

- Fine-Tuning Transformer models BERT, RoBERTa, T5.
- Tools: Python, Hugging Face Transformers, PyTorch, NLP, React, Node.js, Flask.

TECNICAL SKILLS

Programming Languages: Python, Java, SQL, C, C++.

Web Development: HTML5, CSS, JavaScript, React, REST.

AI & Machine Learning: NLP, PyTorch, Pandas, TensorFlow, HuggingFace, Scikit Learn.

Dashboarding & KPI tracking: Spotfire, Looker, Power BI.

Databases: MongoDB, Oracle, MariaDB, MySQL, PostgreSQL.

Microsoft Power Platform: Power Apps, Power Automate.

IDEs: VScode, Eclipse, Jupyter Notebook.
